EDUCATION

Carnegie Mellon University

Doctor of Philosophy in Chemical Engineering

Thesis advisor: [Chrysanthos E. Gounaris](#)

GPA: 3.96/4.00

Pittsburgh, PA

May 2020

Tianjin University

Bachelor of Science in Chemical Engineering

Tianjin, China

Jul. 2015

Nankai University

Bachelor of Arts in Finance

Tianjin, China

Jul. 2015

RESEARCH EXPERIENCE

Ph.D. Research, [Process Systems Engineering](#), Carnegie Mellon University
Supply Chain Optimization

Sept. 2015 - Present

- Implemented tailored branch-price-and-cut algorithms to exactly solve several variants of vehicle routing problems (time windows, multiple trips, heterogeneous fleets, multiple periods, uncertain demands) and closed numerous previously open benchmark instances
- Established a scenario-sampling framework to estimate the marginal cost of serving individual customers and delivered C++ codes to [Air Liquide](#) for commercial use
- Proposed a novel branch-and-cut algorithm for solving the continuous-time inventory routing problem that arises in the industrial gas business (e.g., [Air Liquide](#)) and obtained superior results over the state-of-the-art approach
- Built a novel mixed-integer linear programming model for the full truckload pickup and delivery problem and demonstrated its effectiveness and efficiency through extensive computational studies on industrial data from [Braskem](#)

Global Optimization

- Developed a customized branch-and-bound approach for irregular shape nesting and solved five-polygon nesting instances to global optimality for the first time in literature
- Incorporated strengthened intersection cuts to deal with reverse convex quadratic constraints and achieved superior computational performance over the state-of-the-art global solvers on solving circle-packing instances

SKILLS

Professional Expertise: Operations Research, Mathematical Optimization, Process Optimization

Application Software: CPLEX, Gurobi, GAMS, CBC

Programming Languages: C++, Python

Languages: Mandarin (native), English (fluent)

HONORS & AWARDS

- | | |
|--|------------------|
| H. William and Ruth Hamilton Prengle Graduate Fellowship, Carnegie Mellon University | <u>Apr. 2018</u> |
| James C. Meade Graduate Fellowship, Carnegie Mellon University | <u>Dec. 2016</u> |
| Institutional Honor, Tianjin University | <u>Jul. 2015</u> |
| National Scholarship, Tianjin University | <u>Dec. 2013</u> |

PROFESSIONAL SERVICE

- Journal reviewer:** *Optimization Letters*, *Optimization and Engineering*, *Integer Programming and Combinatorial Optimization 2019* (subreviewer)
- Conference session chair:** *INFORMS Annual Meeting 2018*, *INFORMS Annual Meeting 2019*
- Conference organizing committee:** *YinzOR 2019*

TEACHING EXPERIENCE

- Teaching Assistant, Carnegie Mellon University Jan. 2016 - May 2019
- Optimization Modeling and Algorithms, Chemical Process Systems Design, Special Topics in Process Systems Engineering (CMU courses for undergraduate and graduate students)
 - Models and Algorithms for Supply Chain Optimization ([CAPD](#) short course for industrial participants)
