EDUCATION

Carnegie Mellon University

Doctor of Philosophy in Chemical Engineering

Thesis advisor: [Chrysanthos E. Gounaris](#)

GPA: 3.97/4.00

Pittsburgh, USA

May 2020

Tianjin University

Bachelor of Science in Chemical Engineering

Tianjin, China

Jul. 2015

Nankai University

Bachelor of Arts in Finance

Tianjin, China

Jul. 2015

RESEARCH EXPERIENCE

Ph.D. Research, [Process Systems Engineering](#), Carnegie Mellon University

Sept. 2015 - May, 2020

Supply Chain Optimization

- Implemented tailored branch-price-and-cut algorithms to exactly solve several variants of vehicle routing problems (time windows, multiple trips, multiple depots, heterogeneous fleets, and multiple periods) and closed numerous previously open benchmark instances
- Presented a generic branch-price-and-cut approach for solving robust vehicle routing problems under demand and travel time uncertainty and demonstrated its versatility under various types of uncertainty sets
- Established a scenario-sampling framework to estimate the marginal cost of serving individual customers and delivered C++ codes to [Air Liquide](#) for commercial use
- Proposed a novel branch-and-cut algorithm for solving the continuous-time inventory routing problem that arises in the industrial gas business (e.g., [Air Liquide](#)) and obtained superior results over the state-of-the-art approach
- Built a compact mixed-integer linear programming model for the full truckload pickup and delivery problem and demonstrated its effectiveness and efficiency through extensive computational studies on industrial data from [Braskem](#)

Global Optimization

- Developed a customized branch-and-bound approach for irregular shape nesting and solved five-polygon nesting instances to global optimality for the first time in literature
- Incorporated strengthened intersection cuts to deal with reverse convex quadratic constraints and achieved superior computational performance over the state-of-the-art global solvers on solving circle-packing instances

SKILLS

Professional Expertise: Operations Research, Mathematical Optimization

Application Software: CPLEX, Gurobi, GAMS

Programming Languages: C++, Python, Julia

Languages: Mandarin (native), English (fluent)

HONORS & AWARDS

H. William and Ruth Hamilton Prengle Graduate Fellowship, Carnegie Mellon University	<u>Apr. 2018</u>
James C. Meade Graduate Fellowship, Carnegie Mellon University	<u>Dec. 2016</u>
Institutional Honor, Tianjin University	<u>Jul. 2015</u>
Shanghai Pudong Development Bank Endeavour Fellowship, Tianjin University	<u>Dec. 2014</u>
National Scholarship, Tianjin University	<u>Dec. 2013</u>
Shanghai Pudong Development Bank Scholarship, Tianjin University	<u>Dec. 2012</u>

PROFESSIONAL SERVICE

Journal reviewer: *Optimization Letters, Optimization and Engineering, Integer Programming and Combinatorial Optimization 2019* (subreviewer)

Conference session chair: *INFORMS Annual Meeting 2018, INFORMS Annual Meeting 2019*

Conference organizing committee: *YinzOR 2019*

TEACHING EXPERIENCE

- Teaching Assistant, Carnegie Mellon University Jan. 2016 - May 2019
- Optimization Modeling and Algorithms, Chemical Process Systems Design, Special Topics in Process Systems Engineering (CMU courses for undergraduate and graduate students)
 - Models and Algorithms for Supply Chain Optimization ([CAPD](#) short course for industrial participants)
