AKANG WANG

GENERAL INFORMATION

Nationality: People's Republic of China

Email: akangw@andrew.cmu.edu

LinkedIn: www.linkedin.com/in/akangwang

Languages: Mandarin (native), English (fluent)

Cell: (+1) 412-330-0615

Website: http://akangw.github.io

EDUCATION

Carnegie Mellon University   Pittsburgh, PA
Doctor of Philosophy in Chemical Engineering   *May 2020*
Thesis advisor: Chrysanthos E. Gounaris
GPA: 3.95/4.00

Tianjin University   Tianjin, China
Bachelor of Science in Chemical Engineering   *Jul. 2015*

Nankai University   Tianjin, China
Bachelor of Arts in Finance   *Jul. 2015*

RESEARCH EXPERIENCE

Ph.D. Research, Process Systems Engineering, Carnegie Mellon University   *Sept. 2015 - May 2020*
Supply Chain Optimization

– Implemented tailored branch-price-and-cut algorithms to exactly solve several variants of vehicle routing problems (time windows, multiple trips, heterogeneous fleets, multiple periods, release dates, uncertain demands) and closed numerous previously open benchmark instances

– Established a scenario-sampling framework to estimate the marginal cost of serving individual customers and delivered academic codes to Air Liquide for commercial use

– Proposed a novel branch-and-cut algorithm for solving the continuous-time inventory routing problem that arises in the industrial gas business (e.g., Air Liquide) and obtained superior results over the state-of-the-art

– Built a novel mixed-integer linear programming model for full truckload delivery planning and demonstrated its effectiveness and efficiency through extensive computational studies on industrial data from Braskem

Global Optimization

– Developed a customized branch-and-bound approach for irregular shape nesting and solved five-polygon nesting instances to global optimality for the firsts time in literature

– Incorporated strengthened intersection cuts to deal with reverse convex quadratic constraints and achieved superior computational performance over the state-of-the-art global solvers on solving circle-packing instances

HONORS & AWARDS

H. William and Ruth Hamilton Prengle Graduate Fellowship, Carnegie Mellon University	*Apr. 2018*
James C. Meade Graduate Fellowship, Carnegie Mellon University	*Dec. 2016*
Institutional Honor, Tianjin University	*Jul. 2015*
Shanghai Pudong Development Bank Endeavour Fellowship, Tianjin University	*Dec. 2014*
National Scholarship, Tianjin University	*Dec. 2013*
Shanghai Pudong Development Bank Scholarship, Tianjin University	*Dec. 2012*

PROFESSIONAL SERVICE

Journal reviewer: *Optimization Letters, Optimization and Engineering, Integer Programming and Combinatorial Optimization 2019* (subreviewer)
Conference session chair: *INFORMS Annual Meeting 2018*
Conference organizing committee: *YinzOR 2019*

SKILLS

Professional Expertise: Operations Research, Mathematical Optimization, Process Optimization
Application Software: CPLEX, Gurobi, GAMS, CBC
Programming Languages: C++, Python, OpenMP

TEACHING EXPERIENCE

Teaching Assistant, Carnegie Mellon University   *Jan. 2016 - May 2019*
  – Optimization Modeling and Algorithms, Chemical Process Systems Design, Special Topics in Process Systems Engineering (CMU courses for undergraduate and graduate students)
  – Models and Algorithms for Supply Chain Optimization (CAPD short course for industrial participants)
